# 1 The Introduction

This is a manual for ...

To get CPP pre-defined macros w/ gcc:

```
$ touch /tmp/z.c
```

```
$ gcc -dM -E /tmp/z.c > /tmp/z.e
```

Note on CPP replacement text: IIRC, C99 will remove comments from CPP statements before processing. I preserve this and remove inside the CPP parser.

## 1.1 The Free Documentation License

The Free Documentation License is included in the Guile Reference Manual. It is included with the NYACC source as COPYING.DOC.
